Education

Yonsei University

Ph.D in Artificial Intelligence, advised by Prof. Hae-Gon Jeon

Seoul, South Korea

Mar. 2026 - Feb. 2029 (Expected)

GIST (Gwangju Institute of Science and Technology)

M.S in AI Convergence, advised by Prof. Hae-Gon Jeon

Gwangju, South Korea

Sep. 2024 - Feb. 2026

B.S. in Electric Engineering and Computer Science (major) and AI Convergence (minor)

Mar. 2019 - Aug. 2024

Research Interests

Generative foundation models encode rich priors over images and videos, and my research focuses on leveraging these priors more effectively. I aim to design principled guidance and scaling strategies to improve generation quality. Beyond generation, I am also interested in adapting the priors of these models to downstream computer vision tasks. More recently, I have been particularly interested in (i) streaming video generation and (ii) World Action Models (WAMs).
